

TONE ABSTRACT

Tone Abstract, given name Tony Covarrubias, has been electrifying dance floors since the mid 90's. His humble beginnings are embedded in late 80's Electro, early 90's Dance, East Coast Hip Hop, and Miami Bass music. At an early age and in a time where good music selection and proper mixing skills were a given, Tone learned the art of scratching and turntablism. By the early 2000's, Tone Abstract was playing to massive crowds of 5,000+, working the local San Francisco Bay Area and events on a national basis.

Tone's ambition to produce the music he loved took him away from performing live for some time but by 2015, after dedicating years of audio trials in the studio, Tone gained a passionate focus in music production. Pulling from different elements he's experienced and churning out his own flavor of Breakbeat music he has garnered massive global support and is continuously releasing tracks on the best Breakbeat labels in the world.

Currently, Tone is producing various genres including House, Drum & Bass, and of course his true love, Breakbeat music. Fusing his DJ experience with his production talent, Tone has become a massive force continuing to illuminate the scene and creating a feeling and takes you on an invigorating journey with his sets.
